About This Game

A forgotten adventure is a game about a nice little man. Somehow our hero forgot the road, he was lost and got into an enchanted place. And now, he is looking for his way, overcoming traps, dangers and various obstacles. Every time he falls into a trap, everything starts with a new one. Take on the role of this unfortunate little man and try to take the biggest record for passing!

In the game you have to try to go as many places as possible and set a record. But be careful, because you are surrounded by various hazards: from water to circular saws! In the Forgotten adventure there are game bonuses: extra life and speeding up the character. You can get bonuses by spending coins, which you will collect as you progress through the game: they will come across you along the way, as well as in hidden corners, you can even find a chest with coins!

well done, i would like to see more dlc in the near future plz :) also maybe some urban infantry support roll. HMS VICTORY RULE BRITANNIA. My kind of game. It's really satisfying to memorize patterns and do a little better each round. Your progress is entirely up to you not your character's stats or something.. Short: meh. Uninstalled, put under my "abandoned" label.

Starting with no explanations or goal in sight is ok. However, having the water level rise and rendering the place impossible is just a boring way to have you reset the whole thing over from scratch. Movement is annoying since the world tends to accumulate fruit and stuff in bundles. Camera is way too close on the character to make exploration fun - you pretty much literally fly blind.. It's really good and not too difficult to use. There are bugs in it, but it's not too difficult to go around them. Bugs such as - not responding when hitting the full screen button when on the loading screen, sometimes not responding (doses happen very little), and some of the mods have missing error (pops up when I hit mod, but clicking them away isn't a big problem), and sometime not responding when I sometimes click to fast on updating a mod (the wait please message).

It's not a huge thing and easy to close it when it frozen up or not respond and can be restarted. This tool is great and makes mapping tabletop rpg's a lot easier. I love it when I import my stuff or make a set for maps and if I need to I can use GIMP 2 or Paint for anything extra.. Expensive, but nice to avoid V minimize the PVP instance 8 on 8 battle Grind :)...Why they price it so to be fair to players putting in 3 to 6 mths gaming 3 hrs a day to achieve this gear...value your time...combo of this and new Feb 28th Apocalypse DLC worth it + a \$25 of your choosing...\$200 but you can build some amazing rigs, you will not be OP, but if you enjoy RAIDS and the New Story driving adventure (orange missions) which you can do as 4 player groups now, its so much fun, even RP is possible with the amazing rigs you can build on a theme. Icarus hover legs are nerfed since Dec, so can buy them for around 300 coin on market (each) so 4x, 1200c value of almost \$30 there. Epic Cab i think 1200 coin can be as low as 800 coin (correction now 325 coin since hover nerfed), but thats alot of grind to get that much coin, another \$20 of value there. Lots of armour pieces ect, (6?) invaluable cant be traded on market ect only leveled earned. all in all pack about 8,000coin in value (my estimate) thats \$160 right there...and dont forget your time value (3hx7dx3m)=252h...the build part limit increase to 60 very valuable too(other packs except for tanks 55), if new player or less than level 20 (30 is the max lv) until faction tiers. in summary if you like tanks buy the tank DLC \$10 less and uber armour parts tracks ect (overdone btw ingame by players)...but if you like adventuring (the new story stuff will grow chapt 2 next) and beeing high tech this is the pack for you :)..update spyder cab now uber in pvp, so arachna pack best value for pvp and or selling cab for 3000 coin +(march 30)

I just spent an hour on a puzzle. I know the solution and how to do it. It didn't work. So I looked online for walkthroughs, videos and tutorials on how to do it. That was what I was trying to do, so I tried it again. And again. And again. I just spent an entire hour clicking sticky chains all over a sign post and no matter what I did, I couldn't make the solution in the videos work for me.

That seems to be a game breaking issue.

That pains me to say, because this game is beautiful and it is telling a lovely story without any dialogue. The music is lovely, sound design is great, game mechanics are fun. But if your game is broken, it doesn't matter how well polished it looks.

. I don't really know what to say about this game. It's weird. I want to make clear that this game is ONLY a conversation. That's really all it is. You don't go to different places like a house or a tower. It's only a conversation.

The conversation just gets boring after a while. There's no voice acting, so that also prevents from getting more into the story.

The story is slightly interesting, but not nearly interesting enough to make up for the fact there's nothing to listen to and nothing to see.. So much fun! You never know how it will end! Its a must have!. <https://youtu.be/VY0RSoqF0hWg>

[How many different YDKJ games does it take before players start to know enough to surpass the jack quotient? From the looks of this aging trivia game it's still more than two.](#)

[The YDKJ formula is still enjoyable after this many years but the questions are old enough to vote and the restrictive resolution weakens the game as a whole. Stick to the newer releases for an overall better experience.. Sometimes game is really frustrating. Game with no idea no screenplay. Only solving annoying puzzles, sorry I haven't got the idea of the game even when I won the game.. I just played Turba for 15 minutes, to get the Summer achievement that was added to it.](#)

[Afterward when I got up from my chair, I stubbed my toe very hard, fell and bashed my arm on a bookcase as I tried to catch my fall, scraped my leg rather painfully, and finally broke my fall by smashing my hand against the sharp corner of a wooden box. My arm hurts, my leg hurts, my hand hurts, and my toe is bleeding a bit. I also seem to have punched myself in the stomach or something on the way down, I'm not even sure on that, but it hurts there too.](#)

[Still, if I had no choice but to repeat one of those two experiences, I would not choose Turba.. Gave me diabetes.. Very fun wave shooter, instead of weapons everything is firework related, really cool. Everything feels great you don't have health, you have to stop the aliens from stealing your stuff.. A beautiful atmospheric game!](#)

[The sound is hypnotic and weaved in nicely to create the mysterious atmosphere. Expect tension and a decent amount of suspense but NOT HORROR. Aside from some crazy demonic creatures this isn't a horror game. This isn't Subnautica either. The fact you hold a \u201cgun\u201d aka \u201ctool\u201d is pure self-preservation. If you\u2019re hoping for the above, sorry Charlie this game isn\u2019t for you. It\u2019s a linear storyline that takes you on an adventure with two other divers but then things go wrong as they do and you find yourself lost for a while, so it\u2019s an experience. The voice acting is well done and I personally got attached to the characters. It gets kinda emotional at the end when you find out that holy crap\u2026\) Anyway, an intriguing little indie game with a twist and a message at the end. I enjoyed it.. nice game rly fun and chilling Btw this game support Xbox 360 Controller and for the price this is the most worthy game i have ever bought 10/10](#)
